Something magical happens when a mid-century home is updated to perfection-retaining the clean lines and simplicity of the past with modern. And then you retreat to your own private oasis complete with Brazilian iron wood wrap around deck, raised beds, waterfalls, zen-like landscaping, and fire pit. The well considered updates here include Anderson wood windows, refinished hardwoods, and custom built-ins. Custom kitchen w/Blue Star range, and so much more. Close to future Northgate light rail!
